

Women in Computing

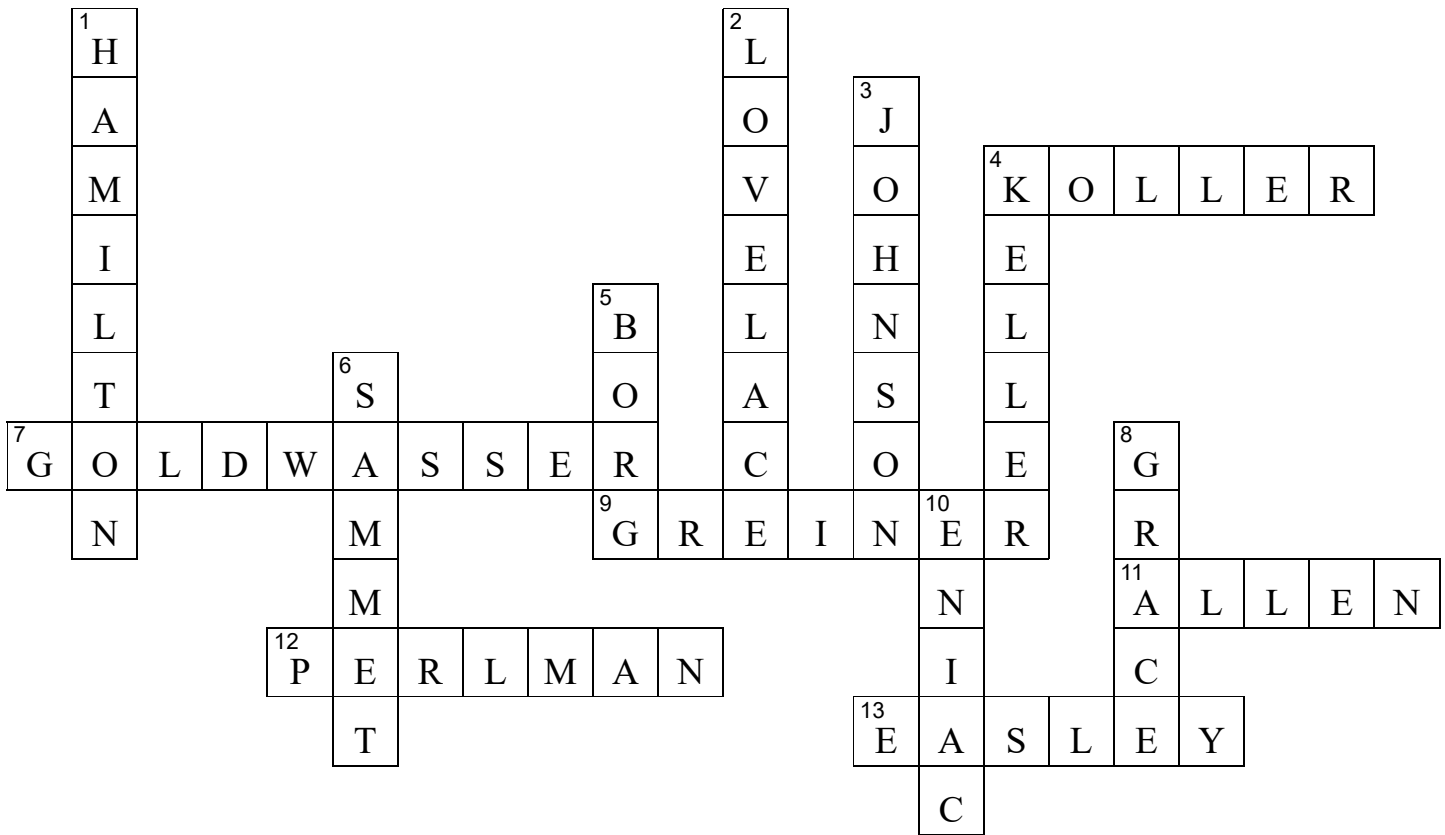

Across:

- | | |
|----------------------------|---|
| 4. Co-founder of Coursera | 11. First woman to win the Turing Award |
| 7. researches cryptography | 12. Worked on network protocols and routing |
| 9. Inspired by R2-D2 | 13. Developed software for the Centaur rocket stage |

Down:

- | | |
|--|---|
| 1. Wrote the on-board flight software for the Apollo space program | 5. Founded the Grace Hopper Celebration of Women in Computing |
| 2. First computer programmer | 6. First woman president of ACM |
| 3. She calculated trajectories for spaceflights | 8. Coined the phrase "debugging" |
| 4. First women CS PhD | 10. These "girls" wrote the code for this computer |
